

# Death by PowerPoint

Dr Hugh Crumley  
Director, Certificate in College Teaching  
Duke University Graduate School

*Illustration of the Lattice*

*The Lattice is a structure  
composed of wood and the  
beads are arranged in a  
series of triangles and  
quadrilaterals. The lattice  
is a series of interconnected  
lines forming a series of  
triangles and quadrilaterals.*

Structure*

# What is PPT good for?

## **Pros**

Visual aid

## **Cons**

Can encourage  
passiveness

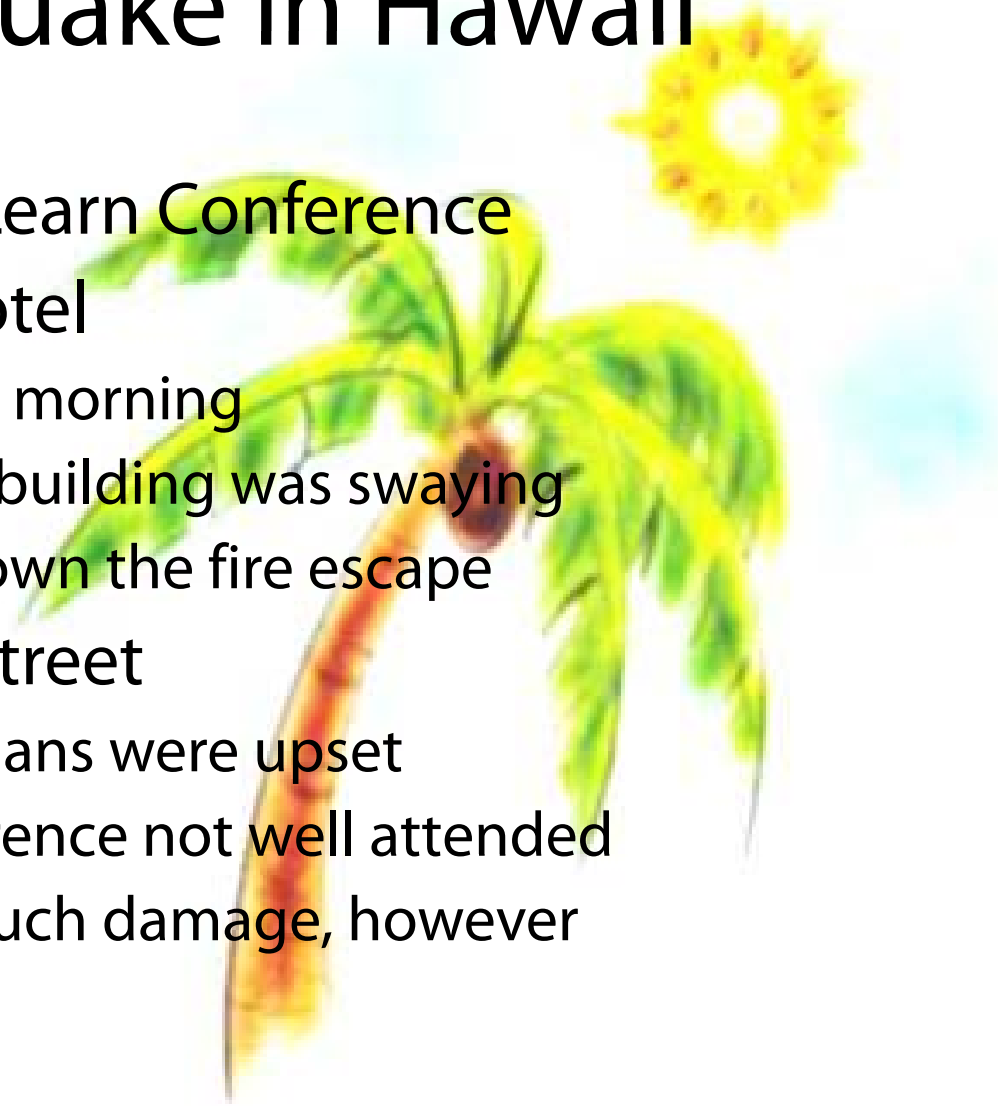

**B**

**2**

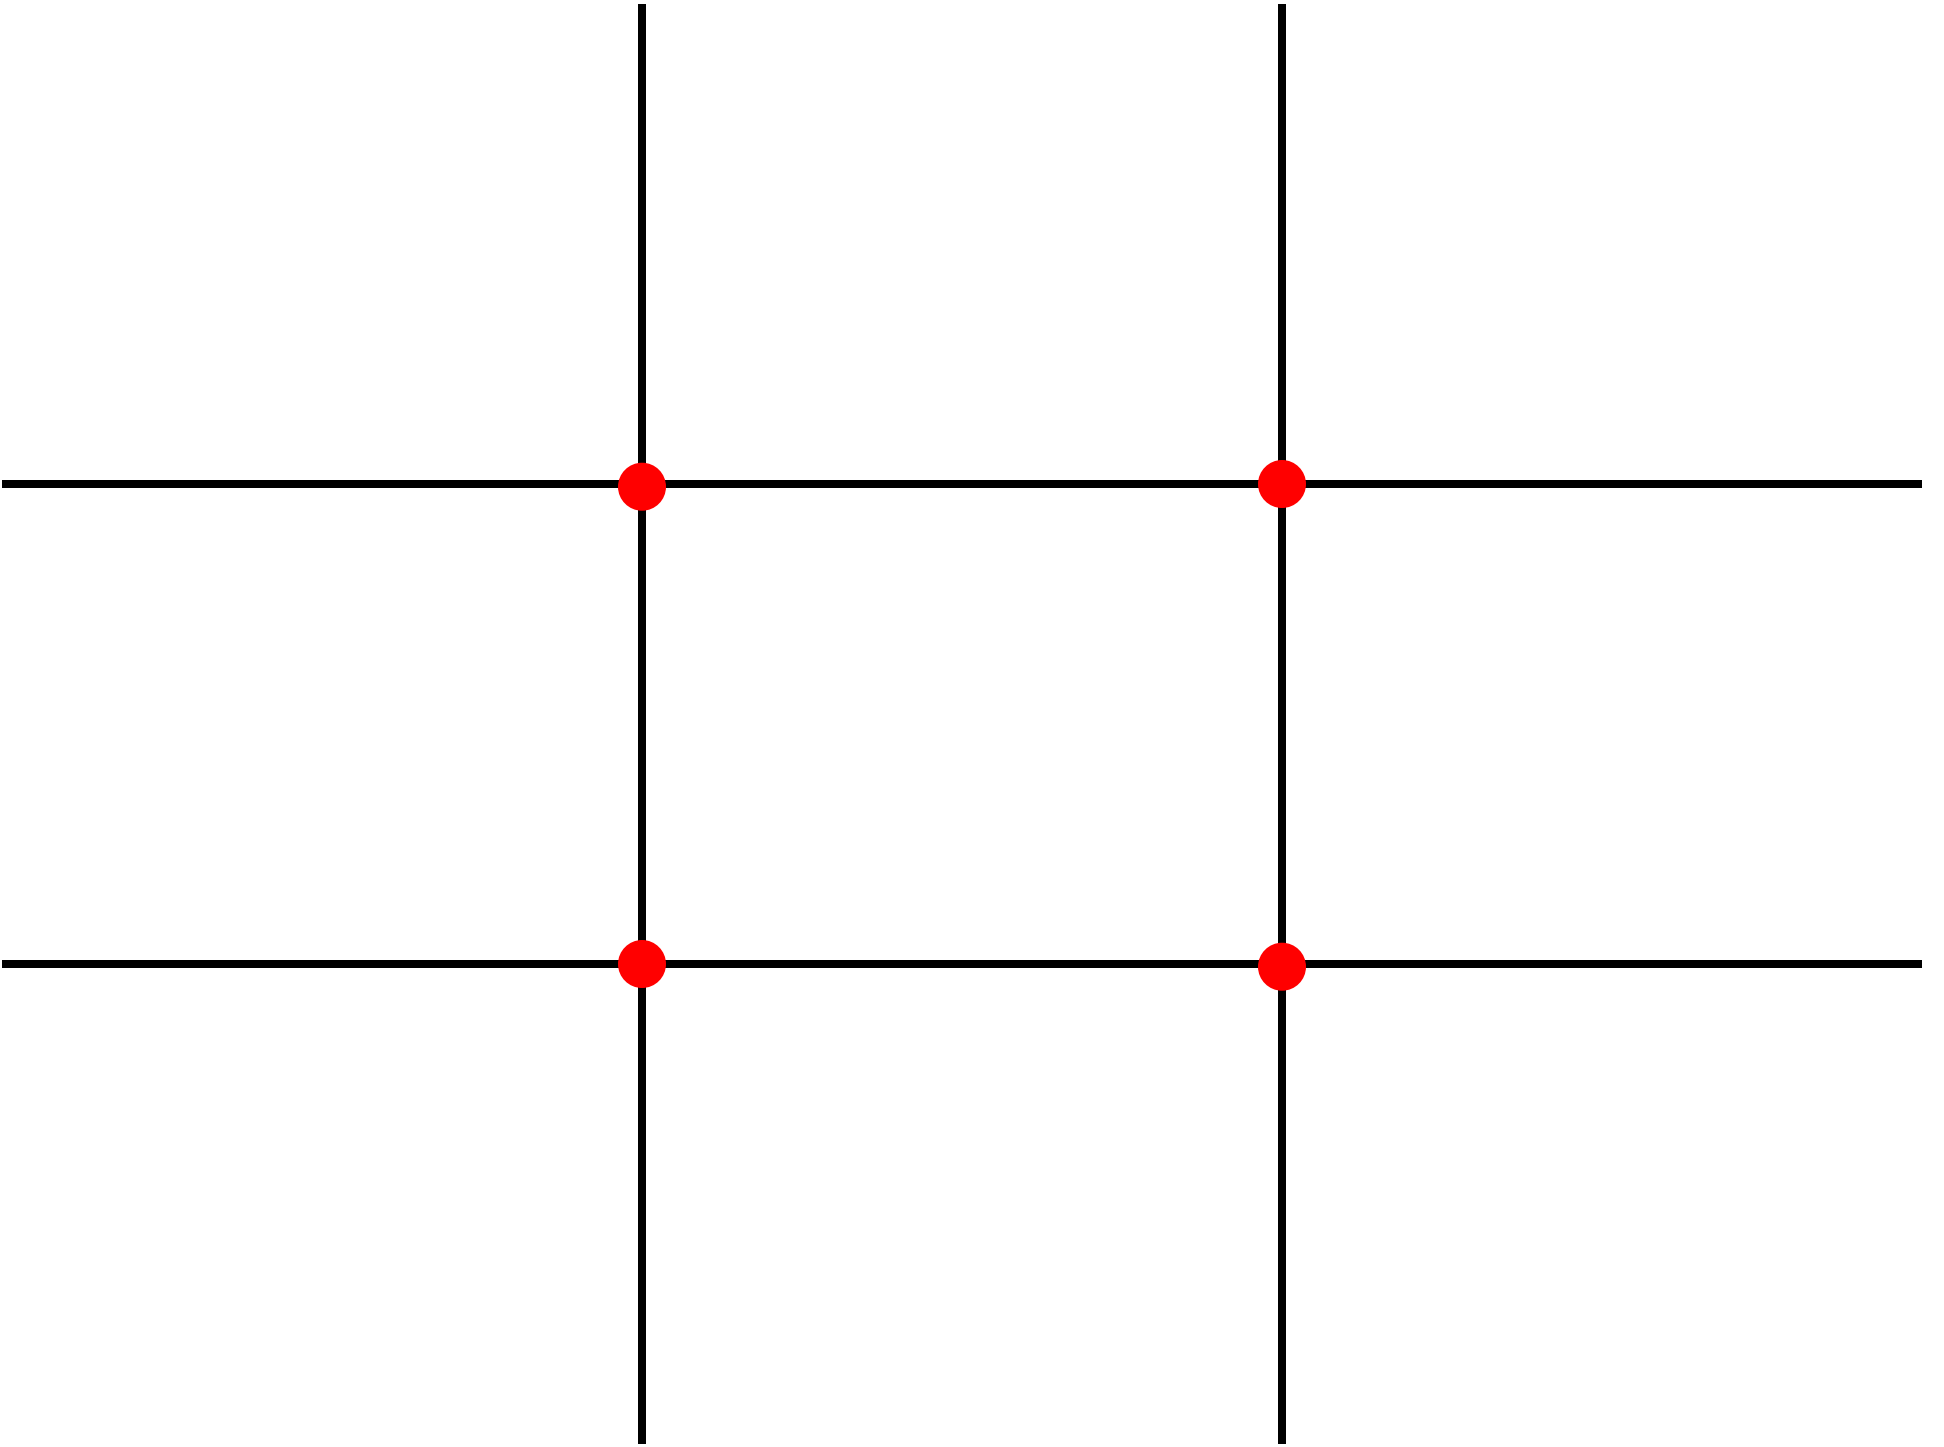

# Earthquake in Hawaii

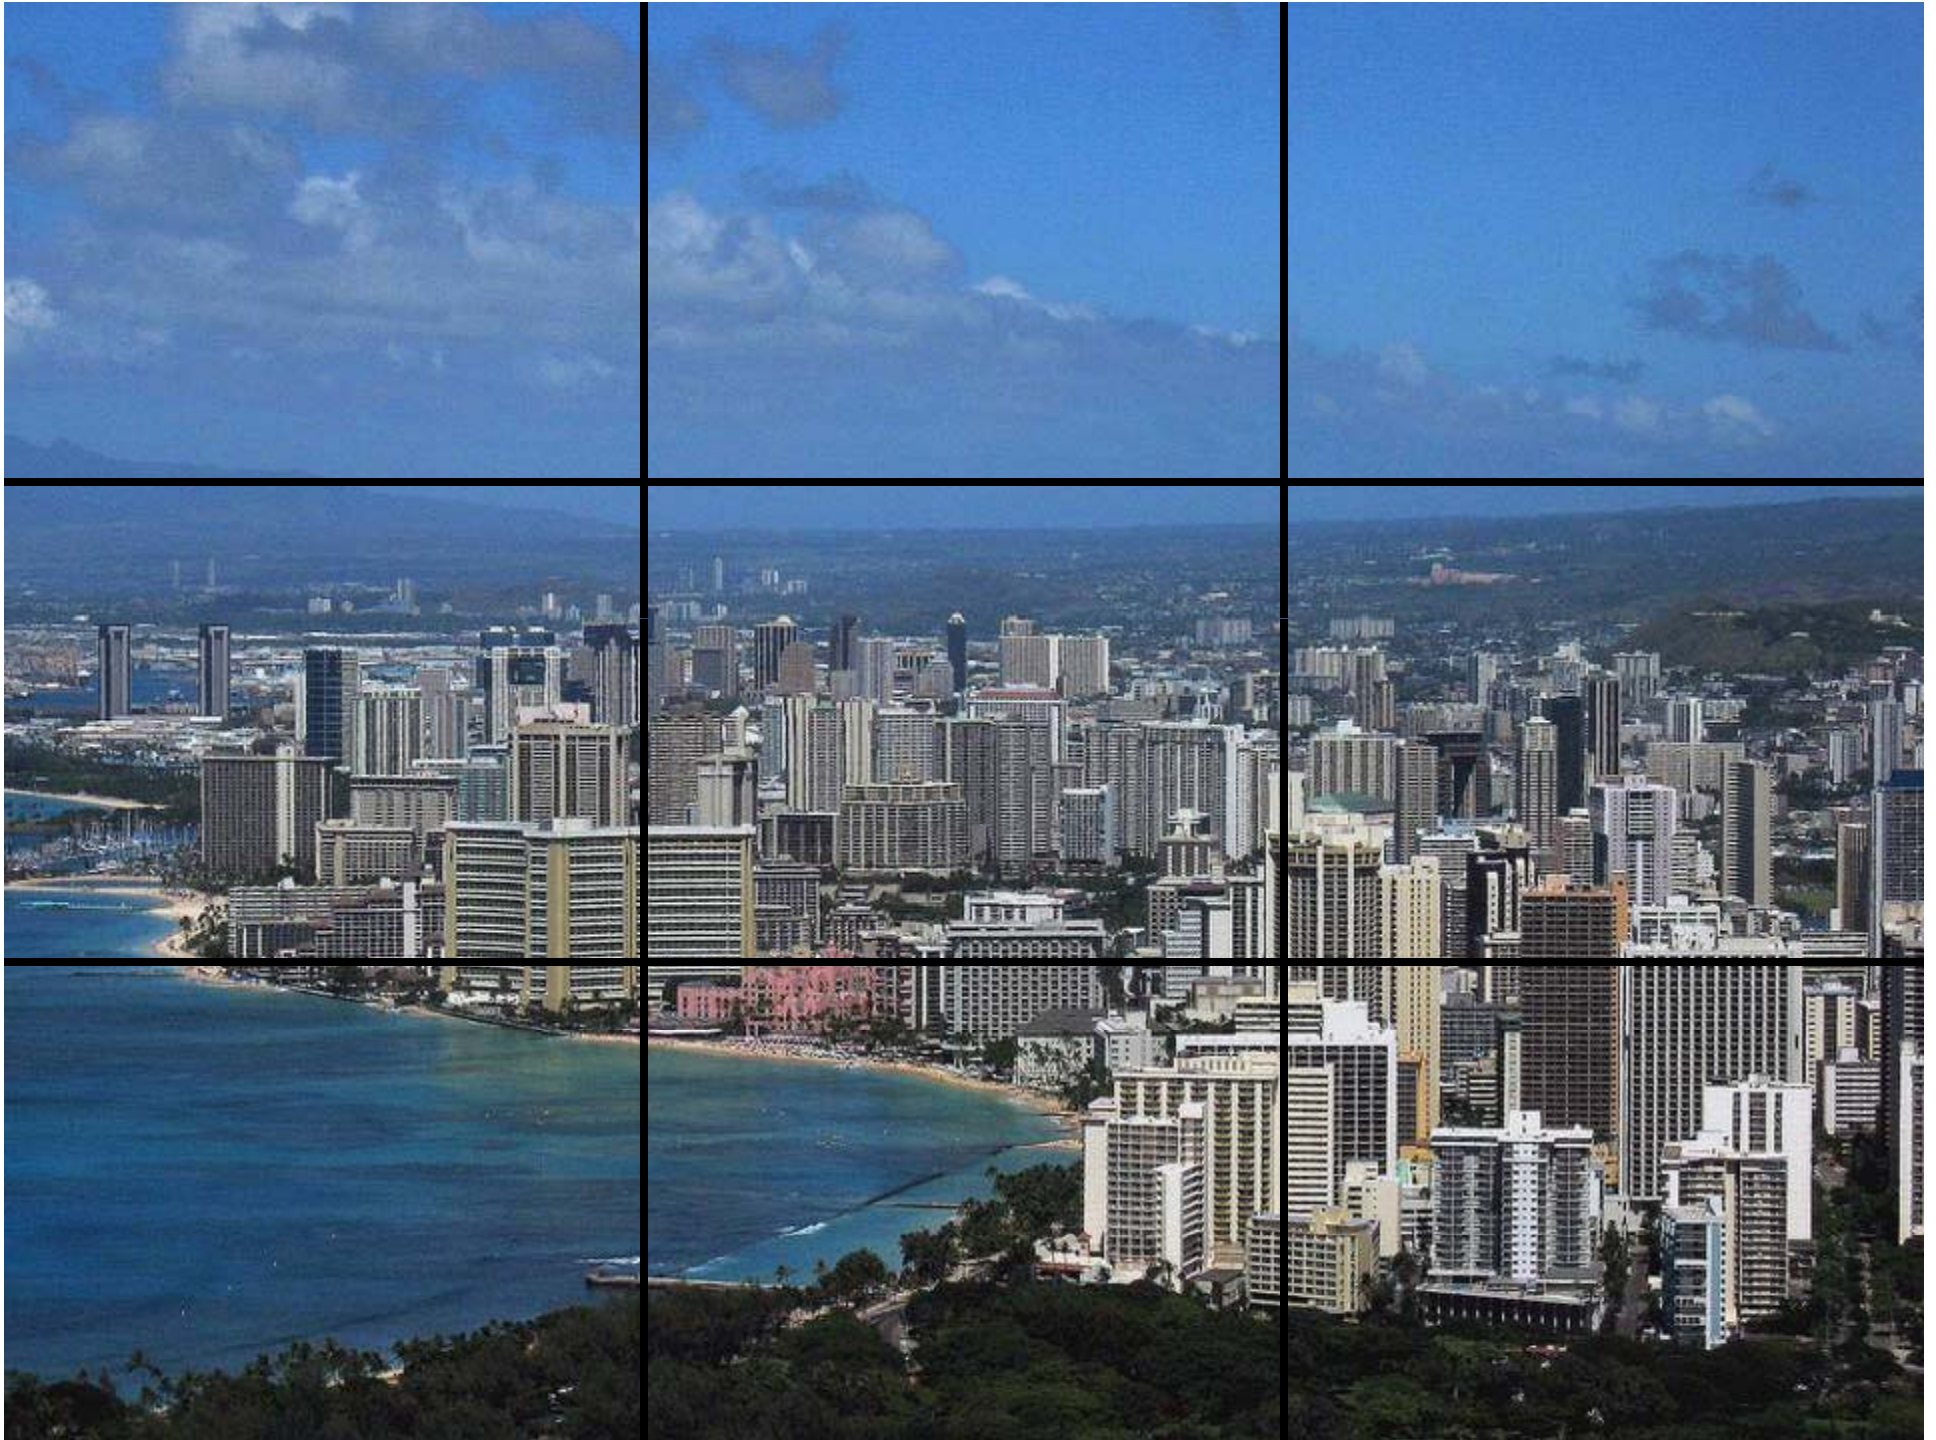

- 2006 E-Learn Conference
- In my hotel
  - 7:04 in morning
  - Entire building was swaying
  - Ran down the fire escape
- On the street
  - Hawaiians were upset
  - Conference not well attended
  - Not much damage, however
